Qing Cheng  
Department of Vegetable Science, College of Horticulture  
China Agricultural University  
No. 2 Yuanmingyuan West Road, Beijing 100193  
China

Dear, Ms. Qing Cheng,

It is a pleasure to inform you, Qing Cheng (Female, date of birth: September 15th, 1988), that we are willing to accept you as a visiting scholar at Plant Breeding of Wageningen University & Research (WUR) in the Netherlands for a period of one year from March 2025 to February 2026.

You will work in a team with my colleagues Guillermo Merino Martin and Suzan Gabriels on a research project entitled "Two sides of the same coin: unravelling susceptibility and resistance to *Phytophthora capsici* in tomato and pepper".

An English language proficiency evaluation was conducted by an interview with you, and we are comfortable that your level of spoken and written English is sufficient for undertaking the proposed research in our research environment.

This acceptance is on the condition that you will be granted with a fellowship by the China Scholarship Council (CSC)- Young Teachers Scholarship Visiting Program to cover your all expenses for your stay at WUR, such as travel, living costs including health insurance, etc..

My colleagues and I look forward to your coming. We are confident that you will make a great fit for our research.

With kind regards,

Prof. Dr. Yuling Bai  
Group Leader: Breeding for Resistance  
Plant Breeding, Wageningen University & Research

Wageningen  
University & Research

DATE  
5 March 2024
