Letter of invitation

Prof. YI Mingfang
China Agricultural University,
#2 Yanmingyuan West Road,
Haidian District, Beijing, 100193
P. R. of China

Dear Prof. YI Mingfang,

T +34 950 31 47 82

I ridder.com

It is my pleasure and privilege to invite you to visit our company in Spain for exchanging knowledge about climate control, water-saving irrigation, and ecologically friendly management of diseases and insects in poly plastic greenhouse vegetable production in a hot and dry climate. We will discuss about cooperation opportunities as well. Spain has a distinctive climate and thus developed different greenhouse management strategies from the Netherlands where glass greenhouse is prevailing. I think the visit will be valuable for your research and the development of Chinese greenhouse horticulture. The whole program covers from 11th to 14th August, 2018.

All the expenses involved in this visit will be met by yourself. We will make necessary arrangements to assist you with hotel bookings and local travels.

With kind regards,

A handwritten signature in purple ink, appearing to be "Francisco Alonso".
